Profile

I am an accomplished electrical safety specialist with a background in professional sales. Involved in the Electrical Safety community since 1999, my specific exposure to this industry has afforded me a very unique perspective. From the small independent electrical contractor to large Fortune 500 companies, my passionate energy and down-to-earth approach has been well received.

Experience Overview

Regional Manager / Territory Representative – 1999 to Present

Subject Matter Expert - NFPA 70E and Arc Flash Safety. Factory Regional Manager for an innovative USA Manufacturer of Arc Rated PPE.

Contact: Zac Twight, VP Sales & Marketing

Texas Instruments – 2016 to Present

Selected as only authorized NFPA 70E Instructor for all qualified personnel. Have instructed NTT Training / Texas Instruments curriculum since December 2016. Contracted by GP Strategies for Texas Instruments.

Contact: Rene Graves, Worldwide EHS Texas Instruments

Blackhills Power – 2011 to 2012

Managed large multi-million dollar, turn-key arc flash solutions project to completion including change order modifications. Coordinated arc flash engineering studies, performed training of qualified personnel, assisted in PPE selection.

Contact: John Lopicola, President Technical Diagnostic Solutions

Companies Recently Worked With:

CPS Energy, Walker Engineering, Tidal Power Services, EP Breaux, Spire Energy, BASF, Facebook, Travis County WD, Deltak Manufacturing, Ozinga, Noble Drilling, Goodyear

Significant Accomplishments

Designed, created, developed and manufactured innovative arc flash PPE for the Electrical Safety industry to solve a very real problem regarding arc flash apparel.
